

## Environment, Health, Safety & Sustainability Council (EHS&S)

The Environment, Health, Safety, and Sustainability Council is an automotive-centric forum for EHS&S professionals to discuss relevant topics such as health and safety standards implementation and audits, workplace performance improvement, and sustainability initiatives.

### Discussion Topics

Health and safety standards, updates, implementation, and audits

Workplace performance improvement

Legislative and regulatory updates and impacts

ESG & sustainability reporting requirements and best practices

### Council Perks

Ongoing Relationship and Connection with Peers  
Trusted Environment for Conversation and Connection  
Connection to Center for Sustainability Activities and Efforts

### Council Benefits

- Recurring meetings that foster discussions of common concerns among like-minded EHS&S leaders.
- Learn from subject matter experts on timely and compelling topics providing actionable insights.
- Exclusive peer group surveys devoted to the EHS&S function.
- Learn best practices from trusted peers via dynamic roundtable discussions.
